# OTHER COSTS

## Sourcing Fee

**\$100**

This is for sourcing through one local suppliers only. We choose only the flowers available from them that week. This means that sometimes types of flowers won't be available, depending on the season, so I cannot guarantee "types" of flowers, but we will try to get colours as close as possible to your vision (excluding blush, dusty pinks, mochas etc)

**\$400**

This is the most expensive option, but some brides choose to go this way to have more of a guarantee on quality and exact colours & types of flowers. This option allows us to source from several different suppliers if we need to, to get what you are after. Again, we cannot guarantee types of flowers, as this method still relies on farmers to be harvesting particular flowers at a particular time, however, with this method we are more likely to get exactly what you are after. The flowers in this option are usually freighted from Melbourne, which means the flowers are the best in Australia & there is so much more variety to choose from.
